

A59

Description

Line-tester for sprinkler systems used on the end off branch lines, controls water flow for flushing or testing of the sprinkler system; fits 1/2" sprinkler head. The NFPA 13 standard recommends that sprinkler branch line flow tests be conducted from the extremities of the branch lines (at the end of the sprinkler system) to determine obstructions in the lines and to clean them of sediments or foreign materials that may be carried into the system by the flow of water.
